_____

Hello,

What exactly doesn't work? You see nothing or something another? Could you provide a link to a page where we can see a problem and a temporary access to your J! backend by email so we can investigate an issue?

Regards,
ARI Soft

Re:can\'t get it to work
Posted by andressama90 - 2012/06/15 17:43
_____

http://andressama-photography.com/portfolio

here's the link and the only thing that displays is "{$emptyText}"
I created an article with {ariphotogallery}images/landscapes{/ariphotogallery}

==

Re:can\'t get it to work
Posted by admin - 2012/06/16 06:13
_____

Hello,

The code is incorrect. Use the next one:

{ariphotogallery activeType="imglist" dir="images/landscapes" thumbWidth="100"}Show gallery{/ariphotogallery}

Regards,
ARI Soft

Re:can\'t get it to work
Posted by admin - 2012/06/18 08:34
_____

Try now.

PS: Switch WYSIWYG editor to plain text mode before inserting plugin code because it changes plugin code in design mode.

Regards,
ARI Soft

_____

Yes, Thank you .. now I wanted to actually create multiple folders where instead of displaying all the pictures, only picture shows and when you click on it, you see the slide show ?

===

Re:can\'t get it to work
Posted by admin - 2012/06/18 12:23

_____

Use the next code:

{ariphotogallery activeType="imglist" dir="images/Landscapes" thumbWidth="100" type="customtext"}Show gallery{/ariphotogallery}

If you want to show an image instead of "Show gallery" link, use the next code:

{ariphotogallery activeType="imglist" dir="images/Landscapes" thumbWidth="100" type="customtext"}{/ariphotogallery}

Where LINK_TO_IMAGE is a link to an image.

Regards,
ARI Soft

Re:can\'t get it to work
Posted by andressama90 - 2012/06/21 15:57

_____

I want to make it look like this :
http://www.woodyonline.nl/new/index.php?option=com_content&view=article&id=85&Itemid=55

without having it to autoplay the slideshow

===

Re:can\'t get it to work
Posted by admin - 2012/06/21 19:15

_____

Add opt_autoSlide="0" attribute to {ariphotogallery} tag.

Regards,
ARI Soft

Re:can\'t get it to work
Posted by admin - 2012/06/22 07:46

_____

Try now. You set "Open on load" parameter to "Yes" in plugin settings, we returned it to "No".

Regards,
ARI Soft

_____

Could you explain in more details what doesn't work? When we click by the thumbnail on the page, the lightbox with images appears. What's wrong?

Regards,
ARI Soft

Posted by andressama90 - 2012/06/28 18:55
_____

as you can see , the thumb for "Landscapes" appears , but for "Nature" it doesn't , everything else works ..

he is an example of how I am trying to make it look like : http://www.woodyonline.nl/fotografie.html

_____

Do you want to show thumbnails for all image, not only for the first image? Do you use the module or the plugin? If you use the plugin, what plugin code do you use?

Regards,
ARI Soft

Re:can\'t get it to work
Posted by andressama90 - 2012/06/29 17:42
_____

It's a plug in and this is the code that I used

Landscapes{ariphotogallery activeType="imglist" dir="images/Landscapes" thumbWidth="100" type="customtext"}{/ariphotogallery}

Nature{ariphotogallery activeType="imglist" dir="images/Nature" thumbWidth="100" type="customtext"}{/ariphotogallery}

_____

I have same problem
My page shows only {$emptyText}, both inlcuding as a n ormal module, and using Anywhere sintax

You can see here some screenshot
https://dl.dropboxusercontent.com/u/15452332/AriFotoGalleryProblem/mod_ariphotogallery.png
https://dl.dropboxusercontent.com/u/15452332/AriFotoGalleryProblem/mod_ariphotogallery_2.png

All mosules and plugin are enabled.

How can I solve this?

Solved, it was a path problem, i missed images/ in direcotory path

PS: link to example CSV file in documentation is broken...

_____

I'm tring to use csv file for image titles but I can't get it to work.
File content is the following:

"File","Title","Description"

"lezioni01.jpg","Image 01","Description 01"
"lezioni02.jpg","Image 02","Description 02"

File is called arizoom.csv (as default in configuration) and it is placed in the same picture folder
In this file there are only 2 lines but in folder there are more files

Re:can\'t get it to work
Posted by admin - 2013/06/14 20:37
_____

Remove empty rows from the CSV file (it contains 2 empty rows).

Regards,
ARI Soft
