
Ari Photo gallery in lightbox says undefined.

Posted by rakatatech - 2013/03/20 14:24

Hello,

The plugin works great except we have one issues. One 1 or 2 images in the light box at the bottom of the image the word 'undefined' appears. This does not appear on all images although all images are the same - in as much as I have done nothing different to create them.

You can view this at:

<http://www.snowberrylane.co.uk/gallery.html>

On some images but not all the word undefined is displayed.

I have added a image to make this easier to see.

Do you have any idea what might be causing this?

Many thanks

Dwight http://www.ari-soft.com/images/fbfiles/images/Undefined_on_the_image.jpg

Hello,

Download and upgrade "ARI Sexy Lightbox" module. After this clean browser's cache. It should help.

Regards,
ARI Soft
