
Quiz Category Description

Posted by 4creator - 2008/08/02 05:42

Hello,

Can I show Quiz Category Description in the Frontend?

Thanks,
Hideto

Right now there is no such functionality in ARI Quiz. We will think about including this in one of the future releases - create template with parameter QuizCategoryDescription - to let user create display templates. But since we are busy on supporting ARI Quiz 2.0 and other new components this will be done not soon. So if you wish you can order custom development for this.

Regards,
ARI Soft
