I got a message about checking for Fraud, and it said i have to wait 24 hours...

So now what happens? lol Do i get something in the mail or do i get something to download? Sorry for being redundant. It's my first time doing this and I trust the system, but I don't like being in the dark... I can't wait until this process is over and Arl Quiz is loaded on to my site.....

Hello,

You should have been received the letter with download link.
