Where is the fish? - demo question
Posted by pekler - 2008/09/09 14:02
_____

Hi,

I would like to have a quiz with about 10 questions like the 'where is the fish' in the demo.

Is this easily done with the quiz once purchased?

Hello,

Yes, it can be done quite easily. You can try to do it on our demo site: http://demo2.ari-soft.com/administrator/index.php?option=com_ariquiz&task=quiz_list (demoadmin / demoadmin).
To create a question similar to what you want, you can create a question of 'Hotspot' type.

Regards,
ARI Soft
