## HTML in the answers

Posted by Arvid - 2008/10/01 06:45

---

I would like to use HTML in the answer-options. I tried it, but nothing appears (I tried to link to a picture, so the questions can be answered with clicking a picture). Any suggestions?

Hello,

Could you please provide us with access to your Joomla! system so we could log in and investigate. Please sent the credentials via email.

Regards,  
ARI Soft

We have investigated and resolved the issue. The problem was not related to ARI Quiz functionality. Please check your email.

Regards,  
ARI Soft
