
Template Preview

Posted by dashbaugh6025 - 2010/02/14 00:21

I have created custom print and email templates. I would like to know if there is a way preview the templates? I would like to make corrections without having to view entire quiz on front end.

Thank you,

David

Hello,

If you use WYSIWYG editor when creating print and email templates, you can see in editor how template looks.

Regards,
ARI Soft
