---

Actually, a 3 questions quiz is like this

1 plus 1=?

3 plus 2=?

4 plus 5=?

result = 100% (i hope!)

i would like this :

1 plus 1= ?

reply : 2

ok, thats correct let's continue

3 plus 2=?

reply :6

no, skip, or try again ?

and so on

result = ... %

Is it possible ?

last question :

Can you we have links to sites using Ari Quiz in order to get ideas and to know what is possible to do ?

Is the demo the minimum or the maximum ?

=====

## Re:Result after each question

Hello,

Currently there is no such functionality in a component. We are going to add something like you describe it in one of future releases.

Regards,  
ARI Soft
