
Quiz images not showing

Posted by Henrik - 2008/11/03 21:41

Hi!

I have set up an IQ test with graphical questions, the answers are then selected by radio buttons.

I have some issues with the display of the questions, I can set up the quiz and the questions in the back end but it does not display in such a way that I can start to edit the CSS.

- 1) The Images do not show at all.
- 2) I would like to have a different text on the radio buttons.
- 3) Name of questions appears twice.

What may be wrong?

The quiz is now hidden by a log-in. I can email user and password.

Best regards

Henrik

Hello,

The credentials you sent us do not work. Please send new login/pass for your site via email and we will have a look.

Regards,
ARI Soft

We have solved the issues - the main reason is that image path should start with "/": "/images/image1.jpg".

Please check your email for our letter.

I have similar problem. The url of the picture contains the ticket number !!!

eg:
http://www.vo2cycling.fr/component/option,com_arquiz/task,question/ticketId,bd629e64c38d6a01995522329de30f5b/variant/images/A%20qui%20le%20Tour/Se%20faire%20mal%20a%20velo.jpg

Please try entering image paths with leading slash - like "/images/image1.jpg".

If this won't help please provide us with login/pass to your site so we could log in and investigate. Please send us credentials via email.

Regards,
ARI Soft
