Hello,

On my website I use some subdomains for testing. I can't get the license key to work, why not?

Hello,

As it clearly stated in our F.A.Q.: "Our licenses are domain-based. This means that you can use the product only on a single domain. Subdomains and domains need different purchases and licenses."

Please send us your subdomain name by email and we will provide you with testing license key for it.

Regards,
ARI Soft
