_____

You can change the language files using administrator interface:
Components -> ARI Quiz -> Languages and Components -> ARI Quiz -> Languages Frontend.

The language files themselves are are located:
joomla_dir/administrator/components/com_ariquiz/cache/files/lbackend and
joomla_dir/administrator/components/com_ariquiz/cache/files/lfrontend.

Please note that we are going to adjust German and Russian translations in the next release of ARI Quiz.

Regards,
ARI Soft
