Questions not loading

Hi, just tryna set up a test quiz, but the questions get stuck on "Loading ...please wait".
URL: http://www.drivingcoach.co.za/index.php/ARIQuiz.html?task=quiz&quizId=1

I've tested in Chrome, FF3, IE7 - all the same.

Oh, and I've left that mambot parser thingy unchecked.

Any ideas? :unsure:

Could you please give us access to your Joomla! system so we coul login and have a look. Please send us credentials by email.

It looks like the problem may be related to some security settings.

Regards,
ARI Soft
