
Can Register user create quiz

Posted by praveenk@mentorware.com - 2016/06/10 06:44

Hi,

Can Register user create quiz from front end application using ARI Quiz ??

Thanks in advance.

Hello,

Thank you for your interest in the extension. Currently it doesn't support ability to create quizzes on frontend. It is possible to grant permissions for selected user groups to create/delete/edit quizzes on backend.

Regards,
ARI Soft

can you tell me tutorial to make some user group to

- Create Quiz + Question

- Create Quiz Category

but he can't edit another option on Ari Menu

i mean user can create quiz from backend with special permission.

i try with special permission,

he can access single component (Ariquiz) but he also can edit all quiz, template, mail, config too.

in permission setting im only alowed create quiz + category and question.

and another fungtion i set not alowed but not affected in joomla backend, user still can edit, event it Ari Quiz Config.

"Enable ACL" parameter was set to "No" in "ARI Quiz" config.
