Do not load test. JSON error afeter update PHP 5.6
Posted by Shvapsss - 2016/07/14 06:09

_____

Updated ports server.
Including php to version 5.6.23.
Then do not work the tests.

What to do?

_____

Hello,

Check that you use the latest version of the extension (3.9.1). If it doesn't help, provide a link to a page where the problem occurs so we can investigate it.

Regards,
ARI Soft

Yes, I downloaded the latest version 3.9.1 and installed. Not work.
I can give the data from the admin panel (login/pass)

_____

It seems this is a problem with redirect rules with are defined in .htaccess file. It redirects all requests to domain.com/index.php file to domain.com. This rules should work only for GET request and ignore POST requests.

Regards,
ARI Soft

_____

I disabled .htaccess and it worked.
But now correctly setup?

FILE
Please, help

_____

Add the following condition for the redirect rule:

RewriteCond %{THE_REQUEST} ^GET

_____

Thank you, you're the best.
Everything is working
