
Quiz results to word

Posted by ctrlmedia - 2008/12/12 15:40

Hi Is it possible and if you how do i export the results to word so that they will include the questions and answers given as apposed to just the results table i currently get? (i really need to see which answer they chose)

Thanks in advance

Hello,

Currently you can export the results in format that you can see on our demo. If you want to export to another format we can propose you to order custom development. If you are interested please contact us by email and describe your detailed requirements.

I dont necesesarly want another format i just want to include the actual answers that have been given. Things like : agree, disagree, not bothered etc.

Thanks

We can do this as custom development. Currently there is no information included in export feature.
