Quiz Statistics

Posted by Alan Henness - 2008/12/26 18:14

_____

I find the Full Statistics page more complicated than necessary for my quiz: The fields 'Question Category', Question Type' are unnecessary and I'd like to keep this as simple as possible for the user. Is there a way to remove these fields?

Also, I don't have any time limits set for the quiz or questions: is there a way to remove the time field from the Full Statistics page?

_____

Right now this can be done only by CSS:

You can add CSS rule for the following classed: ariQuizStatTrCategory and ariQuizStatTrQueType:

display:none;

This will hide 'Question Category' and Question Type' rows.

_____

Is there a similar one that would get rid of the Total Time?

_____

Sure. Class name for this row is ariQuizStatTrTotalTime.
