Bug with the result page
Posted by inexia - 2009/01/10 23:31
_____

Hi Gang,

I created a quizz with 3 questions.

But when the quizz is complete, I can't never see the result because the page reload all the time, each 2 seconds.

It a loop without end.

http://www6.chezmaya.com/index.php/quizz.html

Other question, can we use the script without Ajax. For a portal, the goal is to generate viewing page and showing ads. Any way to use without ajax ?

http://www6.chezmaya.com/index.php/quizz.html

Hello,

Please provide us with access to your Joomla! backnd so we could login and investigate. Please send us credentials by email.

Regards,
ARI Soft

Do you use any SEF component on your site? ARI Quiz supports 404SEF and Joomla! SEF.

Also there is no possibility to use the component without AJAX.

I use the natif sef of Joomla 1.5.

I use Jre Cache too.

I send you an access by email

As we already wrote to you in email the issue was because JRE Cache was caching requests from ARI Quiz and this prevented it from working correctly.

It looks like the problem is fixed now. Please let us know if the issues appears again.

Regards,
ARI Soft
