## Adding Questions in Bulk

Posted by svetlana13 - 2009/01/12 04:24

---

Yes, please add this feature! I have the same issue: I've created 78 questions in the bank because i plan to re-use them in different quizzes. Then I had to manually add them one-by-one to two quizzes, 45 questions each. It would be greater if I could just add a whole category of questions at a time. Thank you!

The similar feature is already submitted as feature request and we will think about adding this functionality in future.
