Change Date Format
Posted by RSNews - 2011/03/01 18:22

_____

I am using the {$created} variable to add the date to the end of articles display.

The date is appearing in "2011-02-18 08:00:00" format.
I would like the date to appear "Tuesday 25 January 2011".
The regular date formatting language/en-GB/en-GB.ini file does not appear to have any effect.
There does not appear to be any date formating in language/en-GB/en-GB.mod_arieasyslider.ini.

How to I change the date format for Ari Easy Slider?

_____

Hello

Use the following code:

{$created|date_format:%A %d %B %Y}

instead of:

{$created}

All available date time format parameters can be found here.

Regards,
ARI Soft

_____

That worked great!

Thank you for such prompt and effective support!
