
Easy Slider Not Saving Article Settings

Posted by qhcmkteting - 2011/08/12 18:51

I am attempting to use easy slider (in Joomla v1.6.1) to display an article from a category, but the module will not save any of the article settings. (count, categories, included articles).

Please let me know if there is a known solution.

Thanks

Hello,

Check that "System - ARI Extensions" plugin is installed and enabled.

It was installed. I uninstalled and reinstalled it now and am still getting this problem.
OOPS, wrong thread ...
Please disregard ...

Hello,

I see that it is an old topic but I have exactly the same issue. The module doesn't save any article settings.

I am using module 1.7.5
Joomla 3.3.1

The plugin system - ARI extension is active

What could be wrong ?

Regards,
Bruno

Hello,

Could you provide a temporary access to your J! backend by email so we can investigate the problem?

Regards,
ARI Soft

I am also getting this same problem

The module doesn't save any article settings.

I am using module 1.7.5

Joomla 3.3.1

The plugin system - ARI extension is active

I have also un-installed and re-installed but still the same out come

Hello,

Upgrade the module to the latest version (1.7.6).
