Is it possible to display Featured Articles into this slider? If not, is this planned for the future?

cheers

Hello,

The latest version (v. 1.3.7) can show only featured articles.

Thank you for your answer.

I'd just bought the product, how come I got to download 1.3.6 in stead of 1.3.7 when that is the latest?

Can I upgrade to 1.3.7, or do I have to purchase it again?

The latest version of the extension is always available in "Member Area" on our site. Download the latest version and install new version of "ARI Easy Slider" module over old version through standard Joomla! installation page.

Quick reply ;)
That was easy to download and install.
Version 1.3.8 already, keep up the good work!

Though I can't seem to find how to list featured articles only at Source Type, how do I do that?

_____

Set "Exclude frontend articles" parameter to "Select only frontend articles":
