
Switch off \"Pause\" on Nav-Buttons?

Posted by mattre - 2012/07/17 09:07

Hi there.

Great Module.

When a visitor clicks on a Prev or Next Button, the Slideshow pauses.

I'd like it to restart after a few seconds (or just completely disable the function to switch into the Pause-state).

Is there a way to do this?

Thanks,
Matt

Hello,

The module doesn't support described ability, but you can submit a feature request here and we will implement the feature in a future release.
