Greetings,  
I installed module easyslider and when I save I get an error-message:  
Warning: explode() expects parameter 2 to be string, array given in  
/home/swissdev/public\_html/dev/is/modules/mod\_arieasyslider/includes/fields/advancedlist.php on line 52  
In addition I can not save categories from which the articles will show.  
Any idea what I can do?  
attached a screenhsot of my backend-view

Hello,

What Joomla! version do you use?

Thanks a lot for this excellent support.  
I wrote a review now @ joomla extensions and marked your support there as outstanding  
problem is solved
