The tried the recommended method of decompressing the .zip file into the /tmp/mod_aridatatables directory and I continue to receive the: Error Please enter a package folder. Unable to find install package I understand Azure limits the upload file size but I assumed by placing the decompressed folder in the tmp directory you would avoid this issue. Any suggestions? Kev	Installing mod on Joomla site hosted on Azure Posted by KDearinger - 2015/12/28 22:22
Error Please enter a package folder. Unable to find install package I understand Azure limits the upload file size but I assumed by placing the decompressed folder in the tmp directory you would avoid this issue. Any suggestions? Kev Re:Installing mod on Joomla site hosted on Azure Pested by admin - 2015/12/29 10.05 Hello, It seems an incorrect path to folder with unpacked archive is entered. We can investigate the problem in more details if you provide a temporary access to your JI backend by email. Regards, ARI Soft Re:Installing mod on Joomla site hosted on Azure Posted by KDeannger - 2015/12/29 15:07 the credentials I emailed are for http://www.arbollink.com Thanks Kev Re:Installing mod on Joomla site hosted on Azure Posted by admin - 2015/12/29 11:46 We have installed the module using mod_aridatatables.zip archive without any problem. Regards, Regards,	Trying to install mod_aridatatables on a Joomla site hosted on MS Azure.
Please enter a package folder. Unable to find install package I understand Azure limits the upload file size but I assumed by placing the decompressed folder in the tmp directory you would avoid this issue. Any suggestions? Kev	I've tried the recommended method of decompressing the .zip file into the /tmp/mod_aridatatables directory and I continue to receive the:
