_____

My Columns does not align - take a look at the attached pictures somehow my headlines and column content is a bit out of line.

Especially when using the fixed scroll height things goes out of line.

Any ideas? http://www.ari-soft.com/images/fbfiles/images/Table_00.png

Hello,

Could you send a link to a page where the problem occurs?

Sadly not, my site is internal behind firewall. I can provide access (Go2Meeting) or clone a copy that i publish but then i have no data for my tables.

We need to see the problem into a browser because it can be a conflict with 3rd party extension or site template styles. You can reproduce the problem with any fake data.
