
ARI-Tables Exporting button is \"Blacked out\"

Posted by leefordss - 2016/02/26 18:01

When I choose to display the export buttons, they appear at the top of my table but they are just black boxes and serve no functionality.

I am on the latest version of Joomla and have just downloaded the Ari-Tables module.

Any suggestions?

Thank you,

Lee

Hello,

Is Flash enabled in your browser? Currently export buttons are working using Flash.

Regards,

ARI Soft
