Can not show a CSV table \"No data available\"

Posted by fabianma - 2016/04/18 03:04

_____

Hello guys,

I was trying to show a csv table but i couldnt

I was reading other posts but i didnÂ´t find something related, maybe i didnÂ´t search too much..

This is the url where i want to publish the module:
http://aulapro.co/directorio/top-100-isce/uncategorised/colegios-top-100-isce

And this is where the csv file is:
http://aulapro.co/directorio/rankings/colegios-top-100-ISCE-2016.csv

Anyway i ask you to please helpme to see what im not doing well, because i follow the instructions on this video (https://youtu.be/IXLYHg-ONg4) and nothing happend..

I attached the file im using, and if you want admin access please let me know how can i give you this info safely.

Thanks!

_____

Hello,

Populate "Choose source type -> CSV -> Path to CSV file" with rankings/colegios-top-100-ISCE-2016.csv value and set "CSV -> Delimiter" parameter to ; value or "Auto-detect mode" parameter to "Yes".

Regards,
ARI Soft
