special characters Ã¤, Ã¼, ÃŸ, ...

Posted by view2lord - 2016/05/19 19:08
_____

Hello There,

be so kind and let me know where is my mistake because I have got so much special characters.
What could I do please? :dry:

sincerely,
Knut

_____

Hello,

If the problem occurs with data from a CSV file and the file is not saved in UTF8 encoding, specify encoding in "CSV ->
File encoding" parameter (we suppose it is ISO-8859-1) or save file in UTF8 encoding.

Regards,
ARI Soft

Hello,

... thats fine, thanks.
I opened the excel sheet in openoffice and save it as text csv with the option "edit filter settings"
after this "maintained Current format" and then I could choose the right format UTF-8. Thats all. :)

Be so kind and let me know how can i expand the tightly cells please and how can I place the complete
table in the center please.

Sincerely,
Knut

Hello there,

The columns are too small for the long text ... and the complete
table should place in the center of the window please.

Sincerely,
Knut http://www.ari-soft.com/images/fbfiles/images/2016_05_19_222435.jpg
