Z factor for table borders

Posted by adoewa - 2016/09/02 05:19

Hi all,

I use images as data in my tables.
On the side of the images , i don't see the table border anymore.
But in Internet Explorezr all seems to be OK, but not in Chrome...

Somebody an idea how to get them back in Chrome?

Hello,

Could you send an image where we can see the problem?

Regards,
ARI Soft

We checked it in different browsers (FireFox, Google Chrome, Safari) and the table looks good. In Google Chrome v. 53.0.2785.89 it looks like:
