
Change color for positive and negative values

Posted by Duffman_DK - 2016/10/21 20:02

Hello

Is is possible to change the color for positive and negative values in a data table?
eg. positive values are black, and negative values are red?

(120,00) - (-120,00)

Best regards

John

Hello,

Currently the extension doesn't support this ability.

Regards,
ARI Soft
