
How to set up google dos to show in ARI data table

Posted by credenceweb - 2017/01/04 19:04

HI -

I have completed a repair to a website which had ARI data tables showing a google doc. But now the settings are not correct. Is there anything written up on how to show a googledoc in ARI data tables?

- Anita

Hello,

Could you explain in more details what is showing wrong and what do you want to change? Is it possible to see the problem?

Regards,
ARI Soft

Please disregard my earlier request. Long story - customer changed mind about what they wanted. :)
