Hello,

Send a link to a page where we can see the slider.

Regards,
ARI Soft

Re:ini file ARI Image SlideShow

Posted by catamaranguru - 2014/02/21 14:28

Hello. I am having the same problem. Links do not work for me. I have Joomla 1.5 and just set up ARI Image Slider. It is at Catamaran Guru Sailing Lifestyle.

I created INI file and uploaded it to folder "images/slider" with images, but no links appear.

```
sailing-lifestyle.jpg="http://www.http://catamaranguru.com/charter-management.html"
paradise-found.jpg="http://www.http://catamaranguru.com/about-cg.html"
buying-catamaran.jpg="http://www.http://catamaranguru.com/private-ownership.html"
buy-catamaran-blue.jpg="http://www.http://catamaranguru.com/private-ownership.html"
self-sufficient-sailor.jpg="http://www.http://catamaranguru.com/learning-center.html"
learn-sailing.jpg="http://www.http://catamaranguru.com/learning-center.html"
```

```
sailing-lifestyle.jpg="live aboard sailing lifestyle"
paradise-found.jpg="yacht ownership and yacht charter management"
buying-catamaran.jpg="tips on buying a yacht"
buy-catamaran-blue.jpg="tips on buying a catamaran"
self-sufficient-sailor.jpg="learn boat maintenance and sailing"
learn-sailing.jpg="learn to sail"
```

Thanks for your help.

Re:ini file ARI Image SlideShow

Posted by admin - 2014/02/21 14:39

Hello,

INI file should be located in folder with images.

Regards,
ARI Soft

=====

Re:ini file ARI Image SlideShow

Posted by catamaranguru - 2014/02/21 14:44

the INI file is in the images/slider folder with the images.

=====

Re:ini file ARI Image SlideShow

Posted by admin - 2014/02/21 14:45

<http://catamaranguru.com/images/slider/ariimageslider.ini> file doesn't exist. 404 HTTP error occurs when we try to load the file into a browser.

Regards,
ARI Soft

Re:ini file ARI Image SlideShow

Posted by admin - 2014/02/21 17:23

To theoweert: we sent the answer to your mail, your INI file has an incorrect format. Each section and item (definition for each image) should be placed on separate line in INI file.

Regards,
ARI Soft

Re:ini file ARI Image SlideShow

Posted by catamaranguru - 2014/02/21 18:17

Oh, I did not understand that the name had to remain ariimageesslider.ini. Makes sense, just did not occur to me because the file was referred to as an example. So I have renamed the file and it is in images/slider. See attached screen shot of directory listing. I also added descriptions because I thought those were optional. However, the slider images do not appear to be linked to the pages at <http://catamaranguru.com/lifestyle.html>.

Thanks so much for your help. http://www.ari-soft.com/images/fbfiles/images/catamaranguru_com_images_slider_folder.png

Re:ini file ARI Image SlideShow

Posted by admin - 2014/02/21 18:42

Your file has an incorrect format. It seems you copied it from site of theoweert. You can find the link to the sample INI file in "Description" section on module settings page.

Regards,
ARI Soft

Re:ini file ARI Image SlideShow

Posted by catamaranguru - 2014/02/21 20:08

This is what I did to create the ini file. I went to the module, clicked on "here" and it took me to http://catamaranguru.com/modules/mod_ariimageslider/ariimageslider.ini. I copied that file, opened it with notepad++ and typed in the file names, descriptions, links, and alt text. Then I saved it and ftp'd it to the same folder as the images. I have just now repeated that process and it still does not work. What do you mean "incorrect format"? The code, the UTF-8 setting? I saw the theoweert earlier, when you sent it, but I did not use that file.

Re:ini file ARI Image SlideShow

Posted by admin - 2014/02/22 07:07

You use very old version of the extension (1.6.4), but the latest version is 2.1.8. Download and upgrade the module, it should help.

Thanks very much. I did not realize the version was old. Someone else was working with the extension and asked me to help...I assumed they had just loaded it. Guess not. Thanks again...it is now working. :laugh:
