Error message

Posted by tarakai - 2014/07/08 04:57

_____

I am using Joomla 3.3 and ARI image slider today downloaded and installed

i receives the following error message on my web page

JFolder: :files: Path is not a folder. Path: "images/slider"

i am a health professionals and very new joomla

_____

Hello,

It seems /images/slider folder doesn't exist on your server.

Regards,
ARI Soft

_____

What folder are the images you want to show in the slider located in?

Regards,
ARI Soft

_____

its folder name is Slider and location in media manager

folder address according window may be like this

mediamanager/slider

here in slider folder my jpg pics present

_____

Could you send screenshots of module settings page and media manager by email?

Regards,
ARI Soft

_____

it worked on removing
inverted commas
i.e "images/Slider"
to
images/Slider
