
slider image individual link not working at all

Posted by greek_folk - 2014/07/17 16:38

links are not working at all, when i hover with mouse it doesnt even say that it is a link.

***/**

ariimageslider.ini

osmbanner1.png="This is a bread"

osmbanner2.png="A cup of coffee"

osmbanner1.png="http://demo2.ari-soft.com"

osmbanner2.png="http://www.ari-soft.com"

osmbanner1.png="Coffee"

osmbanner2.png="Image"

pls if any one can help me, not just to solve the issue, pls write down for me what was wrong, and how was ti solved, so i know how to do it for next time on other sites.

many thanks in advance

i would appreciate any assistance.

Hello,

INI file should be located in folder with images.

Regards,

ARI Soft

It is not an INI file. It looks like a HTML document. Use any simple text editor like NotePad++ to see it.

Regards,
ARI Soft

Thanks. Thats the solution.

I create the file with "TextEdit" on my mac and it was not saved as an INI file.

Thank you very much
