Image slider v2.1.11 don\'t slide in Joomla 3.3.3

Posted by fuzmic - 2014/08/30 22:55

_____

Hi guys

The last time it did not work you suggested to change "Load jqery Method" to "local copy" when not online. After upgrading to Jm3.3.3, even online using either local or Google CDN did not work. The version of jquery is 1.8.2.

Please help as your slider is very good. http://www.ari-soft.com/images/fbfiles/images/ari_jm333_err.jpg

_____

My apologies, i forget to put the images in the slider folder.

Thus

IMAGE SLIDER V2.1.11 WORK PERFECTLY IN JOOMLA 3.3.3   :blush:
