Problem with png and transparency.
Posted by fanru - 2014/09/13 13:31

---

hi,
i have an issue concerning the transparency in a PNG image (ARI image slider module).
though, it's a PNG image, and i check "yes" in the "Fix transparent background" box.
Could you help me by giving me the line of code i need to insert in CSS
Here is the adress where i have an issue with the slider: http://www.rampage.fr:8080
thank you in advance for your assistance with this.

Hello,

Add the following CSS rule to "CSS Styles" parameter in module settings:

.nivoSlider {background-color: transparent !important}

Regards,
ARI Soft

thank you so much for your quick answer. It worked perfectly fine.
If it's not too much ask, can you give also give me the process to show a frame or a "PNG frame image" which would be fixed over scrolling images?
Thanks.

Sorry, but custom modification of the extension is out of free support.

Regards,
ARI Soft
