
Multiple sliders

Posted by Mosler - 2014/10/08 15:20

Hello

Thanks for your sharp advice. It was THE problem.

To solve it I recreated all the .ini files from the original one very carrefully.

And surprise, every slider is OK now :woohoo: !

I will not disturb you again (I cross my fingers in my back owever B))

Thanks again. Now I can put my vote on ARI and JED sites
