
grey shading

Posted by Hadena - 2014/10/31 22:22

Hi,
I upgraded the ari image slider (to be able to add descriptions to the images) but now it has a shading/border around it. Is there a way to remove that and just present the images without the shading?
Thanks!

Hello,

Read this post.

Regards,
ARI Soft

Thanks, Apparently I couldn't find it in the large number of forum threads.
