
ARI Image Slider, height issue.

Posted by Bardamu - 2014/11/23 10:49

Hi,

I know this is ARI Slider support, but i couldn't find any ARI Image Slider section, so sorry about that :unsure:
I'm facing an issue about slider height parameter, no matter the value I put in, it doesn't change the height of the slider placed in showcase position. I heard there is a "Use thumbnails" parameter, but i couldn't find it :(

Please tell what i'm missing.

Thanks

Hello,

Send a link to a page where we can see the slider and screenshot(s) of module settings page by email.

Regards,
ARI Soft
