## How to hide Slideshow as a module on articles

Posted by Sandydocufi - 2015/09/02 16:21

---

We have ARI Image Slider running as a module that appears on all our webpages. How can I hide it on certain articles?

Thanks

Hello,

See parameters on "Menu assignment" tab on module settings page.

Regards,  
ARI Soft

Thanks, For clarification though ...if an article is not assigned to a menu item, it is not possible to turn it off?

Joomla! doesn't support this ability. You can try to use "Modules Advance" component. It provides more options for "Menu Assignment" parameters.
