
Ari Slider.....only 2 Images

Posted by jmross - 2017/10/28 18:39

Hi,

Ari slider is installed, after the image upload I see only 2 images appears in the slide show. The sizes of the images px/kb are almost the same.....I have tried several sizes etc. Please help me what to do.....see also....www.wptest.omdhoorn.nl/portaal/ in the left position.

Hello,

We can recommend to download the latest version of the module on our site, install it on your site and check "Number of images" parameter in module settings. If you want to show all images, set the parameter to 0 value.

Hi at first thank you for the Quickly reply !
Well I downloaded already the latest version earlier today. Now I reset the number of images from 8 to 0.
The result is the same, only 2 images are shown....
So please help me with this....

Could you provide a temporary access to your J! backend by email so we can investigate the problem in more details?
