
Add Image Slider In Article

Posted by acreativepage - 2010/09/28 08:49

How do I add the Image Slider inside a specific article? Other plug-ins I add something like {gallery}face{/gallery} to the article and it works. How do I add this one?

Hello,

ARI Image Slider is Joomla! module not a plugin. If you want to load it to an article, read this topic on forum please.

Regards,
ARI Soft
