Can\'t see image description in Cloud Carousel
Posted by CaterinaC069 - 2013/01/07 11:49
_____

Dear Developers,
I use Cloud Carousel modules integrated with Ari Sexy Lightbox for image enlargement. I can't see image titles and descriptions. I created a .ini file, named aricloudcarousel.ini and placed it in the same image folder. In Module settings I wrote only the file name in the field description, as you can see in the screenshot.

The ini file content is:

fuoriterra2.jpg="Modello Euro"
fuoriterra21.jpg="Modello Riva"
fuoriterra9.jpg="Modello Riva"
PisMax1.jpg="Modello Pis-Max"
SequoiaSpirit.jpg="Modello Sequoia"

fuori terra 2.jpg="rotonda"
fuori terra 21.jpg="otto"
fuori terra 9.jpg="otto"
PisMax.jpg="Ovale"
Sequoia Spirit.jpg="rotonda"

fuori terra 2.jpg=""
fuori terra 21.jpg=""
fuori terra 9.jpg=""
PisMax.jpg=""
Sequoia Spirit.jpg=""

Can you please help me in solving the problem? All the best
Caterina http://www.ari-soft.com/images/fbfiles/images/Schermata_2013_01_07_a_13.png

_____

No problem, I solved by myself. The only mistake was the wrong file name, in some cases.
Thanks a lot the same
Caterina
