
Cloud Carousel

Posted by tayling - 2013/01/11 08:36

Hi - I am trying to download ARI CCloud Carousel but the download link does not work and says to go to download page - could you explain where that is or how I can download,
Kind regards
Tony Ayling

Hello,

We have sent the module by email. The error can occur if your browser doesn't accept cookies or a proxy server is used.
