
Use modal boxes on description INI file

Posted by dionysos - 2013/02/10 13:20

Hi,

i want to show some pictures with a modal box inside the description of the INI file (not the image of the carousel), but it doesn't seem to work.

Did you have a solution for that?

You can see my caroussel at <http://beautebienetre.medisphere.info/etudes-de-cas>

Thank you for you help.

Denis

Hello,

Could you provide an image where we can see what do you want to achieve?

Regards,
ARI Soft

hi,
thank you for your answer.
There is an example of 6 images i want to see on a modal pop up (small images on the bottom right).

best regards,
denis

The module can show a large images or external links into a lightbox when a user clicks by a carousel image. It doesn't provide ability to show a lightbox when a user clicks by description or title.

Ok, it was i thinking...
it's too bad, it could be nice to display a gallery photo inside the description.

Anyway, thank you for your help.

Best regards

denis
