
are you launching a responsive version?

Posted by rachelhawkes72 - 2013/05/04 05:27

hi there, i have ARI Cloud Carousel on my website - www.orangespice.co.uk, the site is built on a responsive template with the cloud carousel as a feature, I need a responsive carousel but love your products and support - when do you anticipate having a responsive version available?

Hello,

ARI Cloud Carousel Pro is responsive and mobile friendly.

Regards,
ARI Soft
