The file looks normal. Could you provide a link to a page where the problem occurs?

It seems this is a conflict with site template styles. Add the following CSS rule to a site template CSS file to fix the problem:

```
#SLB-Wrapper.sexy-theme-blanc #SLB-Navegador strong
{
 color: #000 !important;
}
```

ok good you are the best,
but with somme pictures no description ? perahps with another theme ?

last question

it is possible to put the title with the description in sexy lightbox ?

The extension doesn't support this ability.
