
Image title always show & its on wrong possession

Posted by xoomserve - 2013/06/01 20:19

Hello,

First of all thank you for this great stable solution.
To be honest, it deserve to be paid extension.

My problem that:

The Image title always shown on the website, no need to Hover the image to see the title.

<http://www.ari-soft.com/images/fbfiles/images/Capture-87b357984b1dda262b389301ff766e33.PNG>

On you demo website, I can see the Title only appear if I hover the image.

I found one post was talking about the CSS and I tried it but still have the same problem.

Please:

How I can make the image title just like the one on your demo?

Thank you,
Best Regards,
Tariq

Hello,

Titles and descriptions are shown without image hover on demo site.

Hello,

Thank you for this fast respond.
Apologize for delay while get back to you.

I just notic this when you answered me.
But in the same time in demo website,
If you will hover the image it will show its title,

Would you advise me how to make this too on my website?

Thank you,

Best Regards,
Tariq
