Get lightbox integration under j3 to work

Posted by bvneck - 2013/06/13 07:36

_____

I want the large image to pop up in a lightbox when I click it in the carousel.

I use ARI Cloud Carousel under Joomla 3, I installed ARI Sexy lightbox Module and Plugin an chose "ARI Sexy Lightbox" under "Lightbox integration" in the Carousel Module.

Still, when I click the image, it just opens in the same window... No lightbox. Where is the mistake?

Here is the link:

_____

Hello,

Open "ARI Cloud Carousel" module settings page and set "Load jQuery method" parameter to "Local copy".

Regards,
ARI Soft

_____

I did the Local copy configuration, but still when I click the image it just opens in the same window. I already tried a module only with ARI Sexy Lightbox and it is working fine.
