## aricloudcarousel.ini

Posted by aeron - 2013/07/22 20:05

---

Hi, I am trying to modify the aricloudcarousel.ini file but I do not know how to do it, right now the carousel is working just with pictures as you can see <http://facilities-test.utep.edu/index.php/en/facilities-services-menu>

but I do not know how to find and modify the .ini file

Thanks Regards

Aaron Ramirez

Hello,

INI file can be created and modified in any text editor. It has a simple format. You can read how to use INI file with descriptions and find a link to sample INI file in "Description" field on module settings page:

<http://www.ari-soft.com/images/fbfiles/images/description.jpg>

Regards,
